The Viking Ship Museum

A NEW VIKING AGE MUSEUM OF THE VIKING SHIP MUSEUM at Bygdøy is in planning. The new Viking Ship Museum will enhance the current VIKING SHIP MUSEUM, e.g. the three elaborate sledges, the wagon, five carved animal-head posts, three elaborate sledges, a wagon, five carved animal-head posts, five beds and fifteen horses, six dogs and two cows.

The Oseberg Ship (Foto: Eirik Irgens Johnsen, Museum of Cultural History)

The ship is constructed from oak and teak wood with iron nails. The ship is approximately 22 metres long and 5.5 metres wide. The ship was found on the beach and has been reconstructed. The ship is seaworthy and well-suited for voyages across the open sea. The ship is constructed from oak timbers and is decorated with beautiful carvings. The ship is about 22 metres long and about 6.5 metres wide. The ship was located near the beach and has been reconstructed. The ship is seaworthy and well-suited for voyages across the open sea.

The Gokstad Ship (Foto: Kirsten Jensen Helgeland, University of Oslo)

The ship was built around 900 A.D. and later used as a burial site for a pre-Christian chief. The ship was excavated in 1880. The ship is about 22 metres long and about 6.5 metres wide. The ship was found on the beach and has been reconstructed. The ship is seaworthy and well-suited for voyages across the open sea.

The Tune Ship (Foto: Eirik Irgens Johnsen, Museum of Cultural History)

The ship was built around 820 A.D. and later used as a burial site for a pre-Christian chief. The ship was excavated in 1867. The ship is about 22 metres long and about 6.5 metres wide. The ship was located near the beach and has been reconstructed. The ship is seaworthy and well-suited for voyages across the open sea.

Getting there:

Bus no. 30 to Bygdøy (can be taken from Oslo City Hall | Photo: Kirsten Jensen Helgeland, University of Oslo

The Oseberg ship dates back to about 834 A.D. The ship was used as a burial site for two powerful women. The elder of them was between the ages of 50 and 60 when she died; the younger was a little over age 70 and 80 when she died. The ship was located near the beach and has been reconstructed.
